PROFILE

As a second-year engineering student who has done a few personal projects with html, css and js and one with node js, all I am looking forward to are more learning opportunities to expand my knowledge base and contribute to the committee.

SKILLS

- Web Design
- Front End Coding
- Problem-Solving
- Strong Communication

TECHNICAL SKILLS

- Basic knowledge of web development technologies (HTML, CSS, JavaScript) for potential software projects.
- Familiarity with version control systems like Git for collaborative software development.
- Languages I am familiar with: C, Java, C++, HTML, CSS

EDUCATION

**PARLE TILAK VIDYALAYA
(ICSE)**

10th percentage - 96%

SATHAYE COLLEGE

12th percentage - 85.50%

DJSCE - CSE(DS)

1 st Semester - 9.35 pointer

2 nd Semester - 9.36 pointer

CREATIVE SKILLS

- Editorial skills - Had my short story published in DJS eXpresso newsletter.

RECENT PROJECT

- Made a To-Do list using html, css, js for the frontend and node js as the backend service. It has a user authentication system that lets a user register, login and maintain their own to-do lists.
